SQLTag Device Driver

Features
- Exposes Ignition SQLTags through OPC, allowing easy remote access to Ignitions internal tag system.

Configuration
- After installation, add a "Kymera SQLTags Driver" device.
- Fill in the name parameter.
- Click create new device.
- You are now ready to share your SQLTags with other OPC-UA clients.

Properties

Name	The name of the device
Enabled	To enable or disable the device instance
Time Skew	Skews reported time by adding this value (in ms) to the time of the system

Change Log
- v1.6.0b347 : Initial release

Support
- Support is only provided to license modules with an active I.A. TotalCare Contract.
- Support may be contacted via email, at support@kymerasystems.com, or via phone, at 1-800-470-2302.   Please allow up to 24 hours for a response from our support team.
